Hodgeheg Games

There is no convincing evidence that the study of traditional nor modern descriptive grammars improve children's speaking and listening (and we don't think it has much impact on reading and writing either!) but there is evidence that language games are both popular with children and very effective at developing language awareness and promoting good discussion. Since this story has been around a long time and often used as a class reader at the beginning of KS2, here are a couple of language games which we hope you will try out and then come up with better versions to share with us.

Hedgehogs are in short supply in our neck of the woods, although there are still fifty or so foraging around Regents Park. Apparently they have learned not to try to leave. Have they become collaborative and started talking to each other??

Dick King Smith's hedgehogs are very different from real hedgehogs in that they are sociable animals. Hedgehogs are normally solitary.

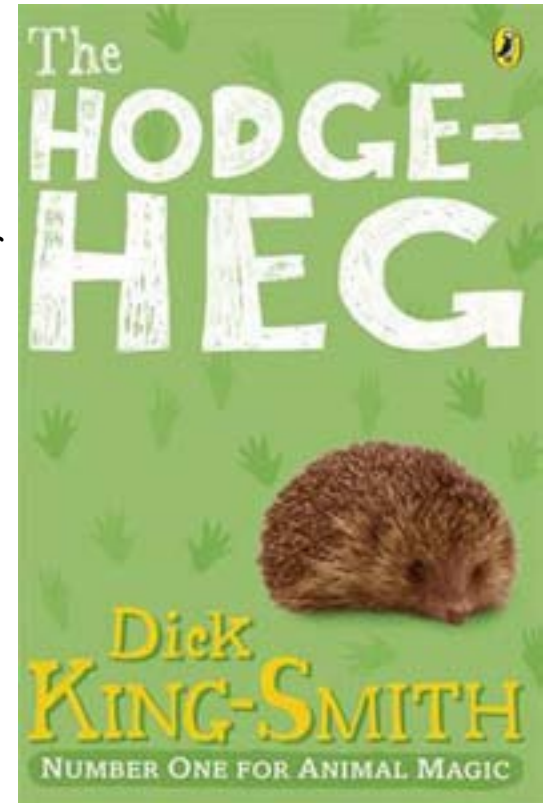

We have just added a work in progress activity scaffolding joint construction of an instruction sheet for hedgehogs (and hodgehegs).

Last updated 30th April 2018 <http://www.collaborativelearning.org/hodgeheg.pdf>

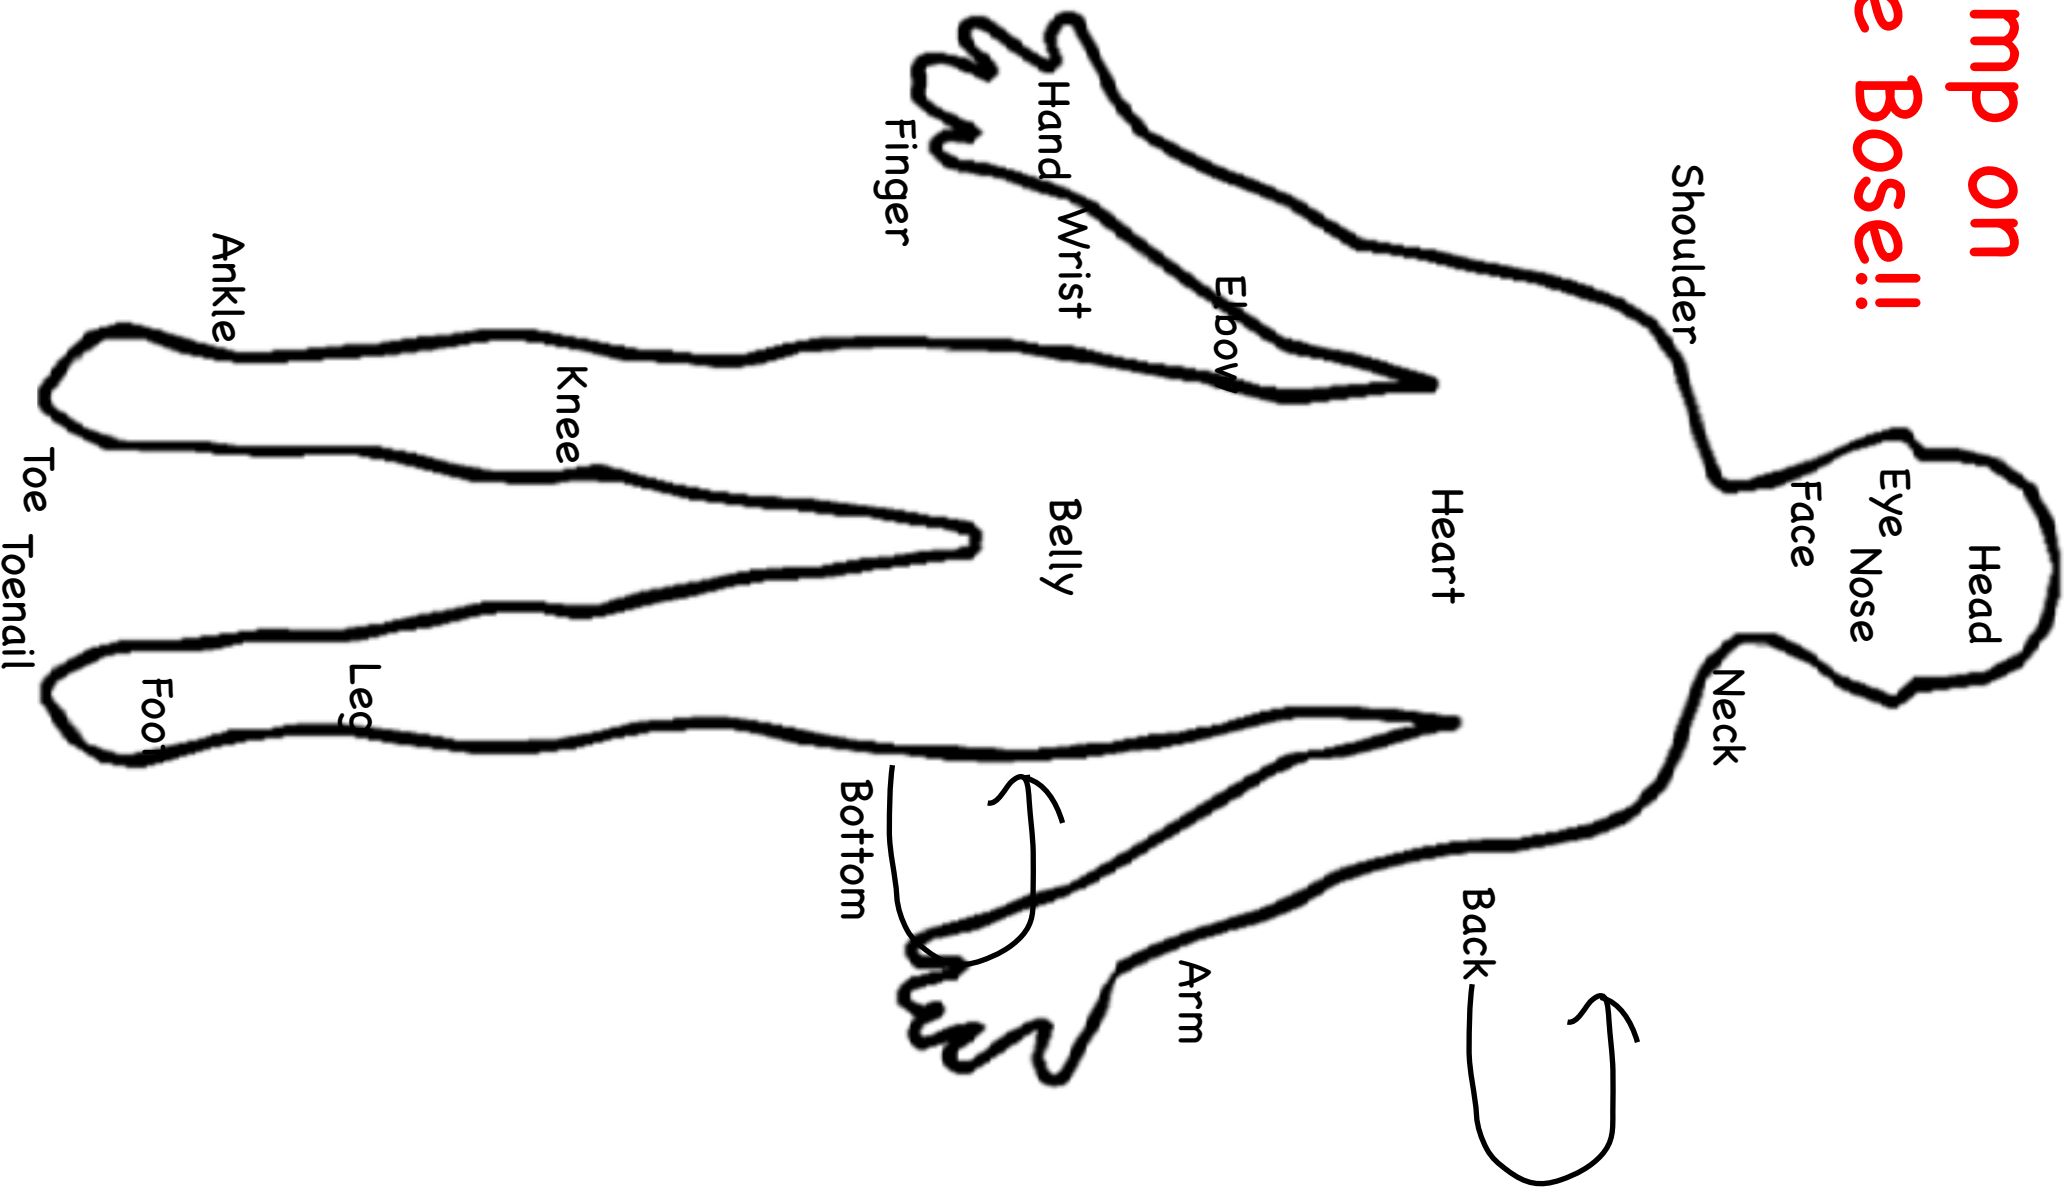

Collaborative Learning:

**makes challenging
curriculum accessible.
improves social relations
in the classroom.
provides scaffolding for
exploratory talk.**

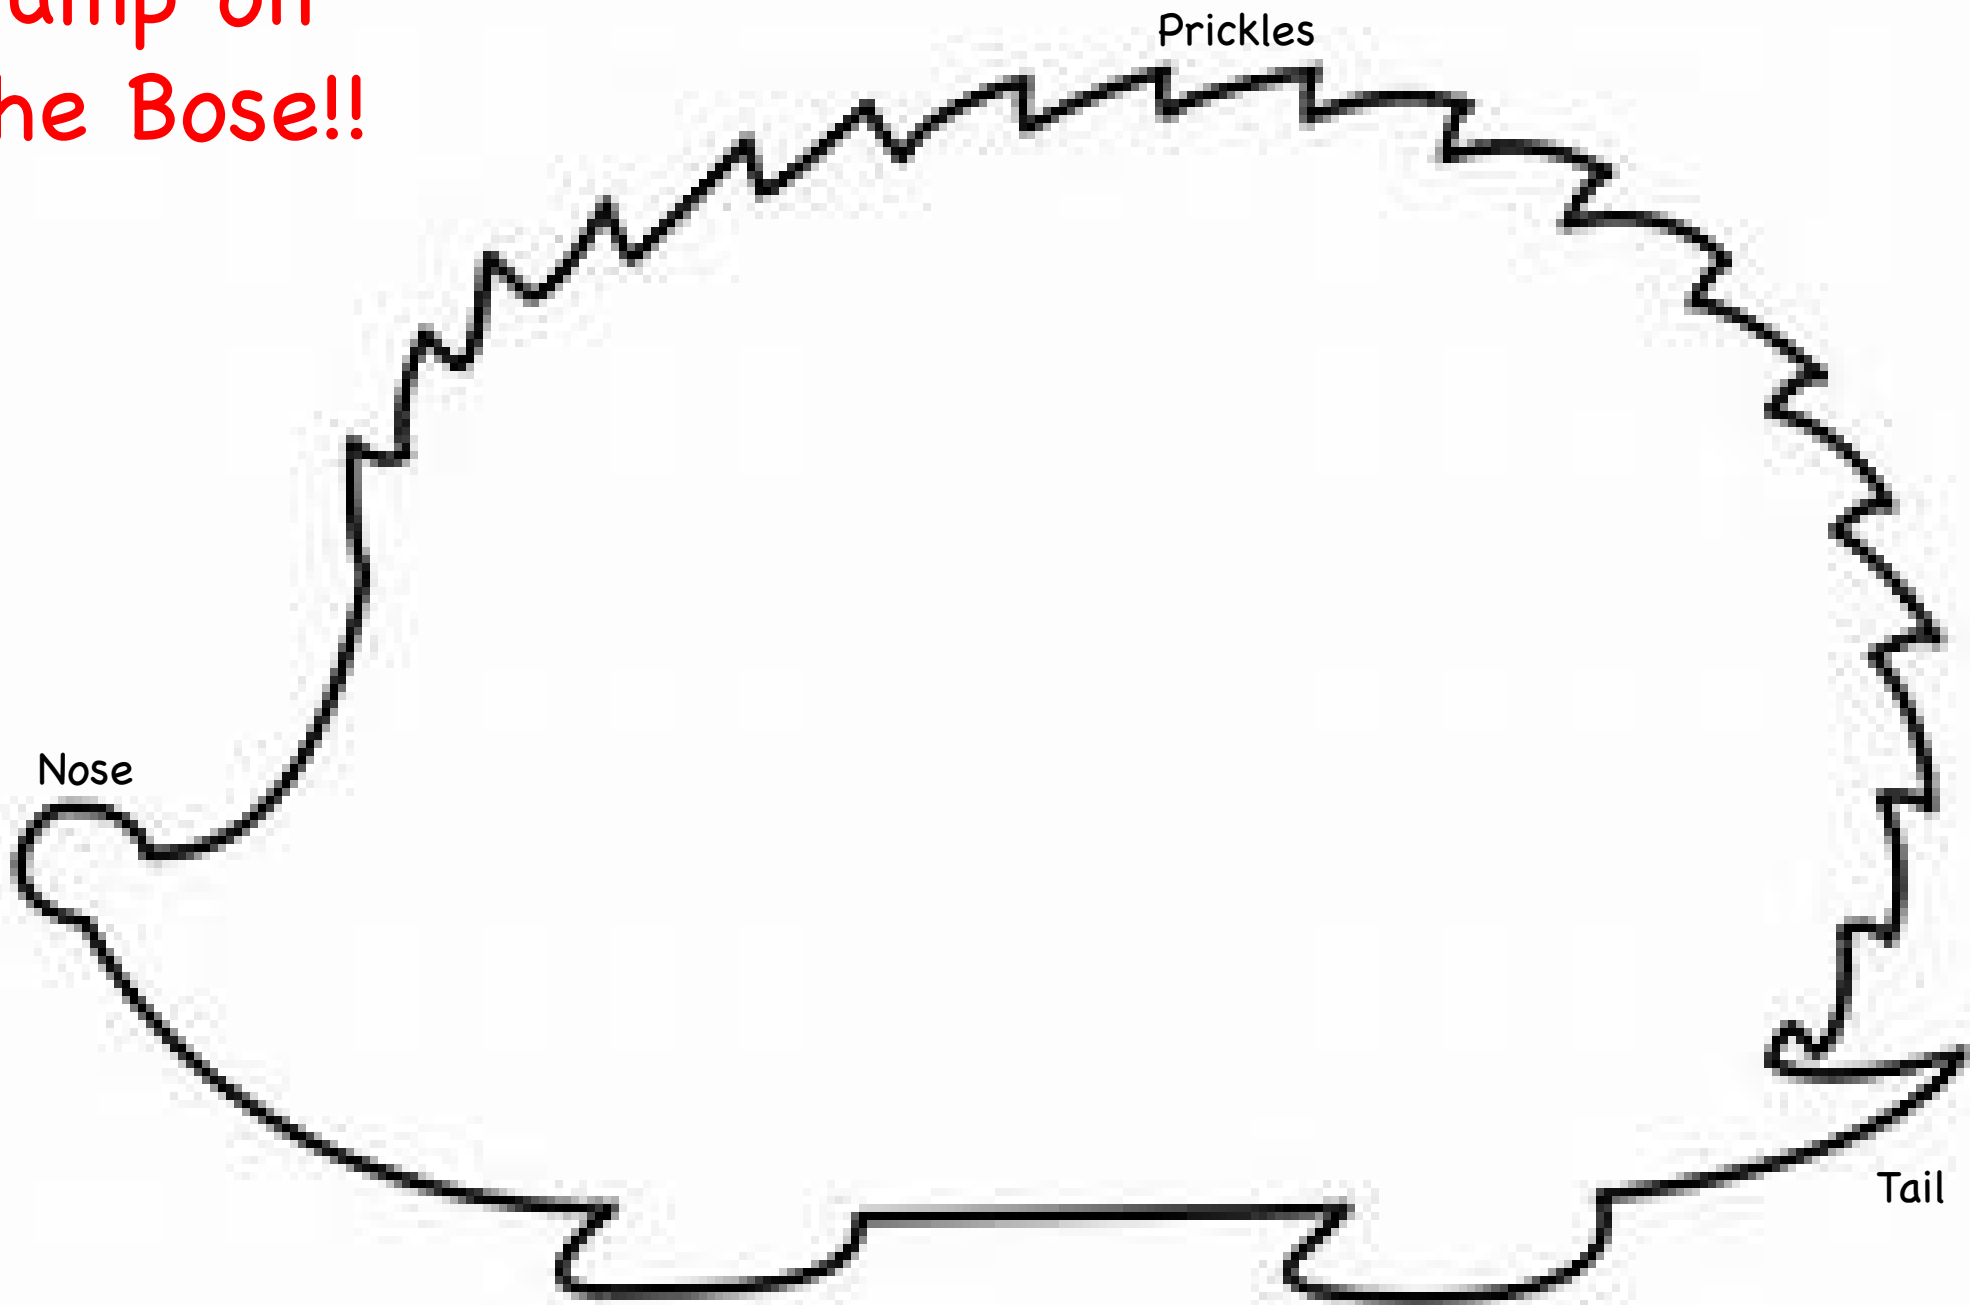

Developing oracy in curriculum contexts while promoting reading for pleasure (and even a good laugh too!)

Hodgeheg Games

How to Play Nump on the Bosc: a game for two or three or two pairs of players.

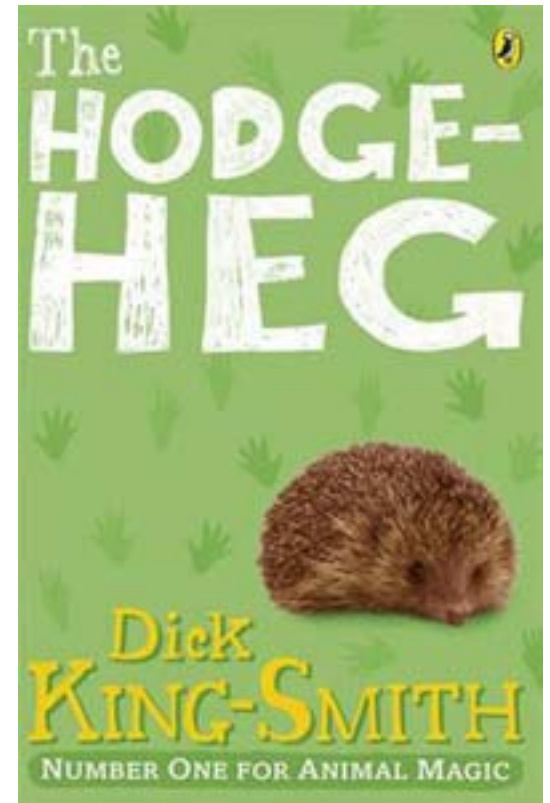

Each player has a figure outline with parts of the body labels and a hedgehog outline.

Place the injury cards upside down spread out or shuffled and placed in a pile.

Take turns to throw the die.

If you throw an even number you can pick a card. Translate your card and place it on the correct part of the body outline.

If you throw an odd number you can draw one extra thing on your hedgehog outline to produce your perfect hedgehog portrait. Please send your portraits to us for publishing on this activity.

How to Play Pedgehog Hairs: a game for two or three or two pairs of players.

Spread out the pairs cards upside down. Take turns to pick up two cards. If they are a pair you can keep them. If they are not pairs you must put them back from exactly where you picked them up. Please send us your examples of Podgeheg Airs to add to these!

Crossing the Road Safely - Humans and Hedgehogs

I have put together a little set of information sheets on some of the different ways pedestrians can safely cross the road. It proved quite tricky and it's easy to understand why folk fail their theoretical driving test. Also here is a checklist to decide how hedgehog friendly a human crossing can be. More instruction sheets on other ways of crossing the road are invited e.g. the 3D zebra crossing!

The aim here is for the sheets to act as scaffolding for children to invent their own hedgehog friendly crossing and write/draw an information sheet to explain its workings.

This is work in progress so please try it out and send suggestions!

Hedgehog Guide to Crossing the Road Safely

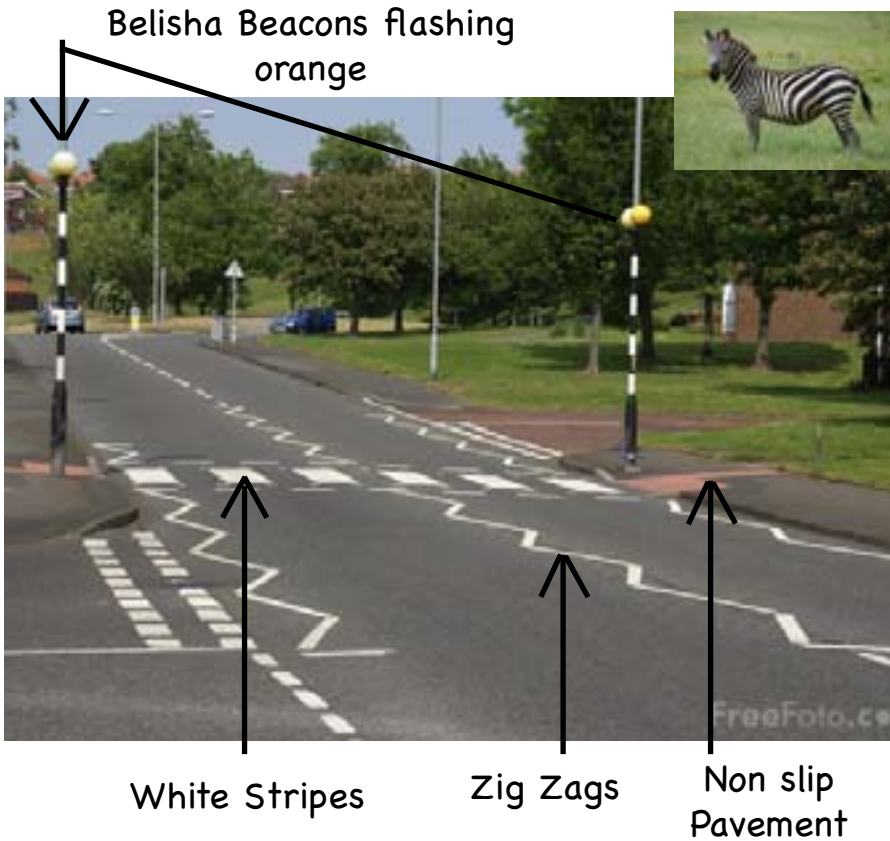

Marks
out of
10

Good reasons - advantages

Bad reasons - disadvantages

Walking across anywhere.			
Using a zebra crossing.			
Using a pelican/ puffin crossing.			
Using a school crossing patrol.			

Zebra Crossing

How to Use a Zebra Crossing

1. Stop at the edge of the crossing on the pink non slip pavement.
2. Look to the right and look to the left.
3. If there is no traffic walk across. Do not run.
4. If there is traffic, wait until it stops completely in both directions.
5. Walk across. Do not run. Wave a thank you to the drivers.

Pelican Crossing

How to Use a Pelican Crossing

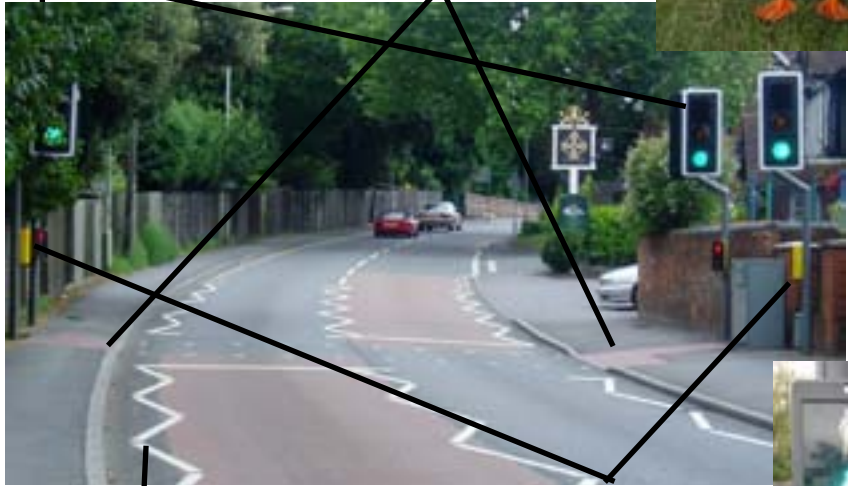

1. Stop at the edge of the crossing on the pink non slip pavement.
2. Press the button on the post.
3. Wait until the traffic stops and the green person appears.
4. Walk across. Do not run. Wave a thank you to the drivers.
5. Do not start to cross when the light is flashing amber.

Pelican crossings are slowly being made in to Puffins!

Puffin Crossing

Traffic Lights

Sensors

Zig Zags

Pedestrian Lights

How to Use a Puffin Crossing

1. Stop at the edge of the crossing on the pink non-slip pavement.
 2. Press the button on the post where you will see a red person.
 3. Wait until the traffic stops and a green person appears on the post.
 4. Walk across. Do not run. Wave a thank you to the drivers.
 5. The light will not change until you have crossed.
- Puffin crossings are clever and can detect you while you are crossing!

Toucan Crossing

Belisha Beacons flashing orange

Bicycle markings

Zig Zags

White Stripes

How to Use a Toucan/Zebra Crossing

1. Stop at the edge of the crossing on the pink non slip pavement.
2. Look to the right and look to the left.
3. If there is no traffic walk or cycle across. Do not run.
4. If there is traffic, wait until it stops completely in both directions.
5. Walk or cycle across. Do not run. Wave a thank you to the drivers.

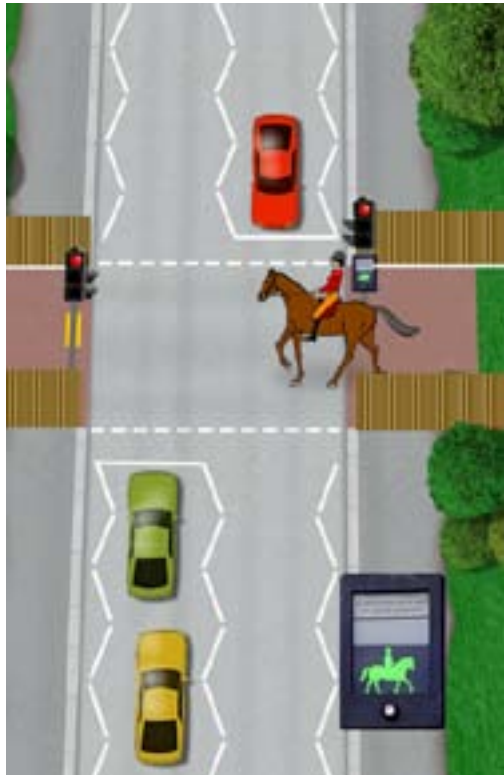

Pegasus Crossing

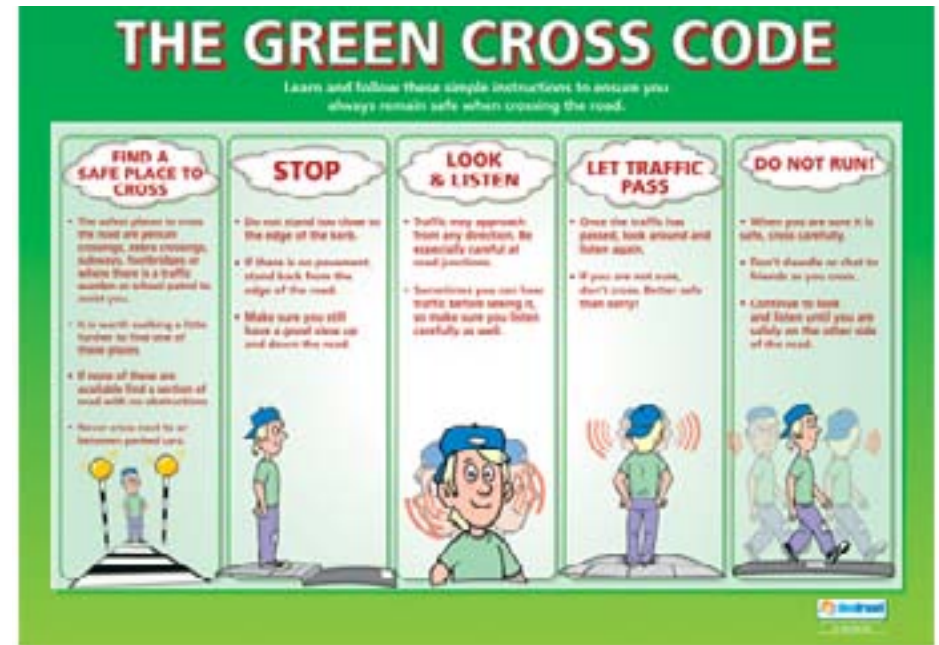

This button is high up

Red and Green Horse

Green Cross Code

How to Use a Pegasus Crossing

1. Ride your horse to the edge of the crossing
2. Press the red horse button on the post.
3. Wait until the traffic stops and the green horse appears.
4. Ride across. Do not gallop or trot. Wave a thank you to the drivers.
