Sort out the  
vocabulary for  
food technology  
while cooking,  
stirring, whisking

This activity has  
been active since  
the times when  
food technology  
was known as  
home economics

Rolling  
Pin

# Kitchen Dominoes

Developed by colleagues in Moray back in the days when Home Economics was transmogrified into Food Technology. A good way of visiting and revisiting subject specific vocabulary while whisking, stirring and beating. We welcome your sharing of similar activities.

Last update 3rd May 2021

**Collaborative Learning = Oracy in Curriculum Context**

**makes challenging curriculum accessible.**

**improves social relations in the classroom.**

**provides scaffolding for exploratory talk.**

**Good for all pupils!**

**Vital for EAL pupils!**

**If you can persuade students to do something simple and playful together they will later jointly be prepared to attempt something more difficult and challenging.**

**Basic principles behind our talk for learning activities:**

**Oracy in curriculum contexts!**

**Build on children's own prior knowledge.**

**Move from concrete to abstract.**

**Ensure everyone works with everyone else.**

**Extend social language towards curriculum language.**

**Provide motivating ways to go over the same knowledge more than once.**

**If you don't get the chance to talk something through with others, you won't be able to write about it later confidently!**

COLLABORATIVE LEARNING PROJECT

Project Director: Stuart Scott

We support a network of teaching professionals to develop and disseminate accessible talk-for-learning activities in all subject areas and for all ages.
